

Lantern Chapter

The Lantern Chapter designation is for any chapter that

- transfers an organizing regent or
- transfers five or more members to organize a new chapter; or,
- transfers five or more members to revitalize a chapter

The chapter that receives the members will receive the same designation. This designation will be retroactively available to any chapter that can produce documentation of the relationship, e.g. meeting minutes.

In addition to cementing the bond of friendship between two chapters, this designation also affords members of both chapters the ability to purchase and wear with pride the new Lantern Chapter pin (which will be available from the DAR insignia store.)
